INTRODUCTION

UNM Confidentiality and Sensitive Information Policies

Your responsibilities regarding the protection and security of administrative information are outlined in the University of New Mexico Policies and Procedures Manual:

- Responsibility and Accountability for University Information and Transactions
 Acceptable Computer Use
 Computer Use Guidelines
 Policy No. 2510
- Computer Security Controls and Guidelines

Use of University computing services in violation of applicable laws or University policy may result in sanctions, including withdrawal of use privilege; disciplinary action up to and including expulsion from the University or discharge from a position; and legal prosecution under applicable federal and/or state law.

Policy No. 2520

Your access to Banner is granted based on business need and it is your responsibility to ensure the information you access is used appropriately. Here are some reminders of good data stewardship:

- Do not share, disclose or store your passwords in an unsecured manner.
- Do not share confidential and sensitive information with anyone, including colleagues, unless there is a business reason.
- Do not leave your workstation unattended while logged in to administrative information systems. You are responsible for any activity that occurs using your password.
- Do not attempt to access accounts, files, or information belonging to others without their knowledge or consent.
- Do not use your computer account to engage in any form of illegal software copying or other copyright infringement.
- Do not use your account to harass other computer users.
- Retrieve printed reports quickly and do not leave the reports visible to others.
- Secure reports containing confidential and sensitive information.
- Shred documents containing confidential or sensitive information in a timely manner.

Prerequisites for the Class

- BANG-EXM004 Banner Fundamentals and Navigation Competency Exam (on-line)
- FINPRV102 Securing Private Data Exam (on-line)

Co-requisite for after the Class

• BAR Role: EOD-FLSA Accurate Time Reporting Mandatory Online Training (on-line). This class may become available before you have taken the class or after.

Student employees may NEITHER be a Time Keeper or Approver.

Learning Objectives

Upon completion of this course you will learn how to:

- Enter time using the Banner time entry form (PHATIME)
- Extract data
- Identify earn codes based on e-class
- Override labor distribution
- Download and review time entry reports
- Work with time entry options

Department Time Entry Overview

Department time entry is the process where Departmental Time Keepers enter time only for the group of employees within his/her timesheet organization (department). The process provides an electronic means to enter, approve, and submit timesheets for Payroll processing.

Benefits of Department Time Entry

- Electronic Department Time Entry
- On-line approval process
- More checks and balances
- Comp time tracked electronically
- Pay stubs on-line

Forms Used

PHATIME – form used by department Time Keepers to enter time for employees through a decentralized process.

- The form is an electronic method to enter time and submit time transactions to Approvers.
- The transactions are then ready for normal payroll processing.
- Electronic time input is the first step in eventually eliminating paper timesheets.

Time Entry Definitions

- <u>Approver</u>: The person who approves time entry within LoboWeb by logging into my.unm.edu
- <u>Exception Time (leave)</u>- Paid non-worked hours (eg: annual, sick, or other paid leave)
- <u>Extract Time</u> Pulling employee information associated with specific organizations into the PHATIME electronic form allowing a Time Keeper to view and/or update time entry data.
- <u>Pay Period</u>: A pay period is open or closed based on the Payroll Calendar. The Payroll Calendar can be found at payroll.unm.edu in the MyPay Tab
- <u>Proxy:</u> A 'backup' department Time Keeper
- <u>Time Keeper/Originator</u>: The person who enters time in PHATIME for a given department.

Time Entry Process on how Time Keepers/Originators enter time into Banner for payroll processing:

Employee completes timesheet > Supervisor approves & signs timesheet > Departmental Time Keeper enters time in to Banner PHATIME online > Departmental Approver logs in to LoboWeb and approves time

Time Entry Rules

Monthly Employees (5R)

- Employee enters exception time for **prior month** on a paper exception report, excel spreadsheet or via email and submits it to the department Time Keeper. (Do not include prior pay period exception time on to current pay period).
- Do not enter in zeros. If an employee submits exception report with zero hours, skip them and move on to the next employee. It is okay to leave an employee at In Progress if the employee did not use any leave in the prior month.
- Missed exception time from prior pay periods must be reported on a **UNM Payroll Leave Adjustment Form** and submitted to Payroll with approval signatures.
- Exception time requires direct supervisor approval.
- Exception time must be entered and approved for monthly payroll (5R) by 4:00 p.m. on the 12th, of each month or the first working day after the 12th of the month. Time input to payroll is **locked at** 4:01 p.m.
- Department Time Keepers should never enter and approve their own personal time.
- For internal control purposes a Time Keeper may not assume the role of Time Keeper AND Approver in the same pay period.

Biweekly Employees (2R)

- Employee enters time on the standard Biweekly timesheet and submits it to the department Time Keeper. Paper timesheets require direct supervisor sign-off approval.
- Do not enter in zeros. If an Employee does not submit a timesheet, skip them and move on to the next employee. It is okay to leave an employee at In Progress if the employee did not work or has not submitted a time sheet.
- Departmental time must be input and approved for the Biweekly pay period (2R) by 4:00 p.m. on the Monday after the pay period ends. PHATIME will be **locked at 4:01 p.m.** for time entry. Please note early approval deadline as outlined on pay schedule.
- Monday, 4:01 p.m. Thursday, 8:00 a.m., as this is the time the entire payroll is processing.
- Thursday, 8:00 a.m. Time entry and approval opens up allowing departments to enter and approve any time that missed the deadline. Employee will be paid 2 business days later.
- Time entered in 'hour in tenths' (6 min increments). For more information regarding rounding to the nearest 10th of an hour, please refer to page 61.
- Comp time earned cannot be taken in the same pay period. For information regarding comp time limit, accruals and restrictions, please refer to page 47.
- You cannot be paid for overtime or compensatory time @1.5 in the same week you have taken paid leave.
- Department Time Keepers should never enter and approve their own personal time.
- Please refer to Policy 3435 on information inclement weather.
- For internal control purposes a Time Keeper may not assume the role of Time Keeper AND Approver in the same pay period.

Student Employees (2R)

- Employee enters time on the standard Biweekly timesheet and submits it to the department Time Keeper. Paper timesheets require direct supervisor sign-off approval.
- Time entered in 'hour in tenths' (6 min increments).
- Student employees are allowed to work a maximum of 28 hours per week.
- If students are required to work on a holiday, they will receive straight time pay for the hours worked unless they exceed forty hours in one week.
- For information regarding inclement weather, please refer to University Policy 3435.

The administrator of each department shall establish a records management program for the application of efficient and economical management methods to the creation, utilization, maintenance, retention, preservation and disposal of official records. The administrator shall establish records disposal schedules for the orderly retirement of records and adopt regulations necessary for the carrying out of the public records act.

Departments may keep electronic records or employee time sheets and/or time cards. However departments are required to keep the physical time sheets and/or time cards with the original signatures for the minimum record retention time.

The University of New Mexico Records Retention Schedules based on document type. See below for table of document type and retention schedule:

| Document Type: | Description: | Min. Retention Time |
|----------------|---|--|
| Time Cards | Records of hours worked by employee. Information includes employee name, date and hours worked | Four years after close of fiscal year in which created |
| Time Sheets | Verification of the number of hours worked by employee. Information includes employee's name, employee number, hourly wage, days and hours worked, department head approval, etc. | Four years after close of fiscal year in which created |

Once this retention period has been met, timesheets and supporting documentation should be sent to the Records Management Department for destruction. Records Management can be reached at 277-1136.

The Time Keeper for each department must enter time for each Biweekly employee using the PHATIME in the Banner. Time must be entered no later than 4:00 p.m. on the Monday after the pay period ends, and must be entered for every employee who worked anytime during the pay period in question. Biweekly employees include, Biweekly staff, on-call, temporary employees, student/work-study and continuing and non-credit instructors.

1. Enter **PHATIME** in the **Search**: field on the General Menu and press **ENTER**.

PHATIME, the **Electronic Approvals of Time Entry** form, automatically displays with the Time Keeper's User ID in the **User ID** field.

20. Before you begin to enter time it is important to verify the employees extracted. At the bottom of the list of employees the total number of employees extracted is listed. The default view is 5 people per page. This can be toggled between 5, 10, 20, 30, 40, and 50. If you do not see one or more of your employees review the section of the Department Time Entry Guide related to time entry errors.

21. Highlight the person you want to enter time for and select the next section button.

The Time Keeper for each department must enter exception time (i.e., annual, sick, and other paid leave) for each exempt staff employee and faculty member using the PHATIME in the Banner System. Exception time must be entered no later than the 20th of the following month, and must be entered for every employee who took leave for the month in question. Monthly employees include, monthly staff, student advisors, dorm advisors, and faculty.

1. Enter **PHATIME** in the **Go To**...: field on the General Menu and press **ENTER**.

PHATIME, the **Electronic Approvals of Time Entry** form, automatically displays with the Time Keeper's User ID in the **User ID** field.

Get Started: Fill out the fields above and press Go.

- 2. **Proxy For**: If you are acting as a proxy on behalf of someone else, enter the Time Keeper's name, or click on the down arrow to perform a search. If you are not acting as a proxy, leave the field blank.
- 3. Superuser: No entry required; leave unchecked.
- 4. Entry by: No entry required; field defaults to "Timesheet".
- 5. Time Entry Method: No entry required; field will default to "Department".
- 6. COA: No entry required; field defaults to "U".
- 7. **Organization**: Enter your organization code, or click on the down arrow to perform a search.
- 8. **Transaction Status**: Conditional. Field defaults to "Not Started". Select one of the following and press tab:
 - a. **Not Started**-Select this transaction status <u>to extract employee timesheets</u> and begin the Department Time Entry process.
 - b. In Progress- Select this transaction status if the <u>Time Entry process was interrupted</u> and/or restarted (employee timesheets have already been extracted for entering time worked).
 - c. **Pending** Select this transaction status to <u>view transactions that have been submitted for</u> <u>approval</u>.

Labor distributions can temporarily be changed during department time entry for Biweekly (2R) employees using PHATIME.

Note: You cannot replace only one index in a multiple index distribution.

- Before performing the labor distribution override, enter a comment indicating why a labor distribution override is necessary.
- 2. Place the cursor in the desired day for the labor distribution override.

How to Restart an Employee's Time Record

PHATIME provides a way to restart an employee's time record. This action removes all data that has been entered for that employee and returns the employee to a Not Started status. Departments may need to restart an employee's time record because of changes that were made to the employee's job record after time has been extracted.

1. As you are entering time for the employee and need to restart an employee's time record, click on the employee's name.

3. You will receive a warning message and you will click yes.

Removing this record will delete the employee's time transaction. Do you want to delete this transaction?

Yes No

4. A notification will appear indicating that the employee's record has been deleted. Now that employee is no longer in your list of employee's. To view that employee's time record you will need to extract time again.

Common Error Messages:

Message: *ERROR* You do not have security privileges to see the records. Cause/Action:

> User does not have security to see records with information entered in the Key Block. The Time Keeper must have passed the assessment test for Banner Navigation, Securing Private Data, and taken the class room training for Department Time Entry. A Banner Authorization Request (BAR) must be submitted for the org(s) for which you are responsible for reporting time.

Message: *ERROR* There were no employees available for extract.

Cause/Action: Four conditions can cause this error message:

- 2. You have selected the wrong time entry method. Verify that you have selected *Department* as the Time Entry Method when setting up the selection criteria at the top of PHATIME.
- 3. You have selected the wrong timesheet organization for the pay event. Please verify the Key block information entered is correct.
- 4. There are no PHATIME records for that payroll with a Transaction Status of Not Started. Query the Transaction Status of All (Except Not Started) to see if transactions exist for this pay event. Employees may have already been extracted for this pay event.
- 5. There are no Employee Jobs Form (NBAJOBS) records with department time entry available for extract. **Call your Department HR Representative.**
- 6. There are no Electronic Approvals of Time Entry Form (PHATIME) records for that payroll with a Transaction Status of *Not Started*. Query on *All (Except Not Started*) in the Key block to see if transactions exist already for the pay event.

Please contact your Employment Data Center (EDC) for further assistance

Message: *ERROR* Hours or Units must be entered or the records should be removed.

The cause of the error:

1. The earn code record is partially created when the Earn Code is entered in PHATIME. The hours/units and days/special rate must be completed before exiting the line in the Earnings block. If no time is to be entered for that Earn Code, use Record/Remove to delete the record.

Message: *Warning* Pay Period not open for Time Entry.

The cause of the error:

1. The pay period is closed. Check the Payroll Calendar for Pay Period Time Entry Dates.

Banner will alert you that an error has occurred in 1 of 2 ways.

- An alert box will notify you of a situation that may impact the data you are about to view.
- The Auto-Hint Status Line (located at the top right corner of the screen) often displays error messages which might be expected in an alert box.

How Time is Approved

- An authorized administrator must electronically approve the departmental time report entered into the HR Banner System before it will be submitted for payment. This electronic approval must take place before the published deadline.
- If you are not primary approver, select the primary approver's name from the drop down box next to Act as Proxy. If you are the primary leave it as self.

| | My Choice |
|-----------------------------|-----------|
| Access my Time Sheet: | |
| Approve or Acknowledge Time | e: 💿 |
| Approve All Departments: | |
| Act as Proxy: | Self |
| Act as Superuser: | |

- If any corrections are needed *before* time has been approved, the Approver can return the timesheet for correction. The Time Keeper can correct and resubmit the timesheet for approval. This must be completed before the time entry deadline.
- If time has been approved but need has errors it can be returned for correction. The time approver can click on the name of the employee with errors and select return time, located at the bottom of the page. This will return the employee to the time keeper to fix any errors with the time record.
- If any corrections are needed *after* the pay period has passed, the authorized administrator must submit the appropriate adjustment form(s) signed by the Dean, Director, or Department Head to the Payroll Office as soon as possible. The request must explain the correction needed and include a copy of the applicable internal time sheet.

6. The request is sent to the appropriate supervisor for approval and to the Approvers for each role requested. Your supervisor is notified and you will receive an email confirming that the request was submitted. Once approved and changes applied, another email is sent to let you know that access has been granted. To check the status of your request, click on "My Requests" at the top of the page.

To Request Primary Approver Status

- 1. Go to Banner Authorization Request and create a new request.
- 2. Scroll to the bottom of the request page where it shows Selected Time Approval Orgs.
- 3. Select the Primary Approver box next to the Org you want to be the primary approver for.
- 4. Make sure to complete the rest of the Banner Authorization Request and submit it.
- 5. Once the Banner Authorization Request has been approved you will be listed as the primary approver. There can only be 1 primary approver for each Org.
- 6. Do not request any BAR roles near the time entry deadlines. It can cause you to lose the ability to enter or approve time.

Biweekly Employees (2R)

Banner will not let you enter in a code for which an employee is not eligible. For example, if an employee is SN and you try to enter hours as 012, Banner will give you an error message saying that the employee is not eligible for that earn code.

Appendix II – Comp Time

| Employee Type | Employee Class | Time limit to use | Maximum accrual | Restrictions | After time limit is up |
|------------------|-------------------|----------------------------------|--------------------|--|--|
| CWA | SW | 60 workdays from the date earned | 240 | none | must be converted to overtime pay |
| USUNM | SU | 90 calendar days | 120 | may not earn both overtime pay and compensatory time for the same period | must be converted to overtime pay |
| ΡΟΑ | SP | none | 240 | none | overtime hours after 240 comp time hours are accrued must be paid at the overtime rate |
| Non- Exempt | SN | 90 calendar days | 120 | cannot be used until the pay period following the date in comp time was earned | must be converted to overtime pay |

When a nonexempt employee works authorized overtime, he or she is paid at one and a half (1-1/2) times the employee's regular rate of pay (base pay plus shift differential, if applicable). If the supervisor and the employee both agree in writing, a nonexempt employee may be granted compensatory time off in lieu of overtime pay. The compensatory time must be used within the limitations set in policy (See Table I) of the date in which it was earned or it will be converted to overtime pay. Compensatory time may not be taken until the pay period following the date in which the compensatory time was earned. If an employee does not want compensatory time in lieu of overtime pay, the employee must be paid overtime. Compensatory time off is calculated at one and a half (1-1/2) times the overtime worked and must comply with "Compensatory Time" Policy 3310, UBP.

CMP1

E-Class (SN, SO, ST, SU) - If the employee has accrued 120 comp time hours, then it must be either used by the employee or paid out within 90 Calendar days.

CMP2

E-Class (SP, SW) – If the employee has accrued 240 comp time hours, it must either be used by the employee or paid out within 60 work days (SW). (SP) has no time limit to use.

To track comp time earned, comp time taken and comp time paid out, earnings codes were created for each bank.

| 037 | Comp2 Time Pay Out @1.0 | | | | | x | x |

Process Steps:

- 1. At conversion, an employee will start with a zero balance in their compensatory time banks. Prior accrued leave will be used before using the banks in Banner.
- 2. When the employee works overtime/additional hours at either 1.5 or 1.0, the employee will choose whether he wishes to be paid out or accrue compensatory time.
- 3. Using the time sheet submitted, the Time Keeper will enter comp time earned, comp time taken or comp time pay out in PHATIME. See Table II.
- 4. A Comp Time Aging Report will be utilized by departments to pay employees when comp time earned is not used within the allotted time. See Table I.

Overtime is time worked, exclusive of meal breaks, in excess of forty (40) hours in a standard work period of seven (7) consecutive days. When a nonexempt employee works authorized overtime, he or she is paid at one and a half (1-1/2) times the employee's regular rate of pay (base pay plus shift differential, if applicable) and must comply with **"Overtime" Policy 3305, UBP**. If the supervisor and the employee both agree in writing, a nonexempt employee may be granted compensatory time off in lieu of overtime pay. This decision may not be used as a factor in determining which employee to assign to work overtime. If an employee does not want compensatory time in lieu of overtime pay, the employee must be paid overtime.

If an employee works additional hours during a week that Leave was taken, earn code 016 (> 40 Hrs Per Wk @ 1.0 rate) will be used.

Exempt employees do not receive overtime pay.

Non-exempt employees who **do not** work on a paid holiday will enter regular hours (Earn Code 010-Regular Base Pay) for each UNM observed holiday.

Note: There is no Holiday Pay earn code in PHATIME.

Earn code 100 "Worked Holiday @1.5" should be used for E-classes SN, SP, ST and SU to report hours physically worked on a holiday when the employee will also be given time off in lieu of the holiday. See excerpt from Policy 3405 below. The system will accrue leave on code 100 and pay the employee at 1.5 times their hourly rate. If the employee cannot be given a day off in lieu of the holiday, pay the employee using earn code 010 (Regular Base Pay) and code 015 (Overtime @1.5 rate).

Examples have been provided below. (* designates earn code accrues leave)

John Smith works 8 hours on Thanksgiving Day (November 27). He will be given another day off. His time would be entered as follows:

11/27/2008 Earn Code 100* (Worked Holiday @ 1.5) 8 Hours

John Brown works 8 hours on Thanksgiving Day (November 27). He <u>cannot be given another day off</u> in lieu of the holiday. His time would be entered as follows:

| 11/27/2008 | Earn Code 010* | (Regular Base Pay) | 8 Hours |
|------------|----------------|-----------------------|---------|
| 11/27/2008 | Earn code 015 | (Overtime @ 1.5 rate) | 8 Hours |

Jack Adams works 12 hours on Thanksgiving Day (November 27). He <u>cannot be given another day off</u> in lieu of the holiday. His time would be entered as follows:

| 11/27/2008 | Earn Code 010* | (Regular Base Pay) | 8 Hours |
|------------|----------------|-----------------------|----------|
| 11/27/2008 | Earn code 015 | (Overtime @ 1.5 rate) | 12 Hours |

Sue Smith works 14 hours on Thanksgiving Day (November 27). She <u>will be given another day off</u>. Her time would be entered as follows:

| 11/27/2008 | Earn Code 100* | (Worked Holiday @ 1.5) | 8 Hours |
|------------|----------------|------------------------|---------|
| 11/27/2008 | Earn code 015 | (Overtime @ 1.5 rate) | 6 Hours |

Note: Earn code 300 (Other Paid Leave) may be used for the holiday in place of 010 (Regular Base Pay) only when the employee will not be given another day off in lieu of the holiday. Earn code 300 (Other Paid Leave) also accrues leave.

* designates earn code accrues leave

UNM Policy 3405:

4.1.1. Nonexempt employees who are required to work on a holiday will be paid for the hours worked at a premium rate of one and a half (1/2) times their regular rate (base pay plus shift differential, if applicable), and will also be given time off in lieu of the holiday. The time off given in lieu of the holiday will be in accordance with Section 4. herein and must be granted within ninety (90) days of the time earned. If a nonexempt employee does not take the time off during this time period or separates from the University before the time off is taken the employee will be paid for all unused holiday leave at straight time. Employees required to work on a holiday, who can not be given a day off in lieu of the holiday, will be paid the premium rate (one and a half times their base pay plus shift differential) for the hours worked on the holiday. In addition, they will receive holiday pay at their regular rate of pay in accordance with Section 4. Nonexempt employees who separate from the University will be paid for all unused holiday leave at straight time.

At times, employees may be required to make themselves available to work on an as needed basis outside of their normal work hours. Compensation for standby status will be determined by the degree to which an employee's free time is restricted. The specific factors considered to determine if standby status is compensated are:

- restrictions on the employee's location,
- expected response time to return to work,
- number of other employees available to be called, and
- frequency and urgency of calls received.
 - If employees have to leave a phone number or carry a pager but are free to leave the premises and attend to personal matters without restriction, they are not eligible for standby pay.
 - Employees are paid standby pay if, while waiting to return to work, they are so restricted that they cannot pursue personal activities. Standby pay rates are determined by the Department of Human Resources. If employees are called back to work while on standby, they are paid at their regular rate of pay for the hours actually worked or at time and a half for any overtime that is worked.
 - Only non-exempt employees are eligible for standby pay.

Exempt employees are not eligible for standby pay.

When is a Payroll Adjustment Form Necessary?

A payroll adjustment is necessary when an employee's pay or leave must be corrected, amended, or changed. An adjustment can be due to an overpayment, an underpayment, or because leave has been understated or overstated. Just as there are different reasons why an adjustment is necessary, there are also different methods that can be used to process the adjustments. If an overpayment has occurred, Payroll will set up an accounts receivable to collect the amount due from the employee's next paycheck. When an employee has been underpaid, then a determination should be made as to whether the amount is significant to the employee or if he/she can wait until the next payday to be paid. If the answer is yes that the employee is willing to wait until the following payday, then the adjustment can be entered through PHATIME as a prior period adjustment with the proper earn code. If the adjustment is due to a significant number of hours not being reported and the employee wishes to have his pay as quickly as possible, then the UNM Biweekly Payroll Time Entry Adjustment Form should be used. This form should always be used when the hours were reported under the wrong shift. When there is no difference in pay and the only thing that needs to be adjusted are the leave balances, then the UNM Payroll Leave Adjustment Form should be used. Adjustments to leave will process on the next payroll if received prior to the deadline. Adjustments for monthly employees, other than leave, are not processed via the Adjustment Form mentioned above. Rather an amended contract or PAN must be submitted to Payroll. Based on the new information, Payroll will then calculate the overpayment and set up an accounts receivable. If it is an underpayment, Payroll will calculate the amount and pay it based on a similar prioritization as that for Biweekly employees. There seems to be some confusion as to when adjustments will be paid. Currently, Payroll is receiving many adjustments, which must all be prioritized, not only by type but also by the amount of the under payment or significance to the employee. An employee who was not paid for 40 hours has a higher priority than one who was not paid for .6 of an hour. Additionally, the current payroll has to take priority over most adjustments. Errors must be corrected, garnishments applied, workers compensation issues resolved, and catastrophic leave for affected employees must all be processed prior to the current payroll deadlines before other adjustments can be worked. There is a 2-day turn-around to process the check or direct deposit once Payroll has been able to process the adjustment. This does not mean that 2 days after the adjustment is submitted to Payroll, that the employee will be paid. Payroll must still work within the parameters of all that must be done on the current payroll and to work on the adjustments by priority.

Guidelines for an Adjustment vs. Prior Period Hours

If the adjustment does not meet the above requirements or the employee/department has previously submitted an adjustment for a similar reason, the correction to appropriate hours should be done using PHATIME in lieu of a Time Entry Adjustment Form.

Note: This will pay the employee on the next regularly scheduled Biweekly pay period.

Enter the time using a prior period adjustment Earn Code:

- 1. Use code 095 for "Prior Period Overtime @ 1.5" (for missed regular staff overtime hours @ 1.5)
- 2. Use code 096 for "Missed Temp Hrs Prior Period" (for missed temp & on-call hours)
- 3. Use code 729 for "Prior Student Hours" (for missed student hours)
- 4. Use code 739 for "Prior Grad Hours" (for missed graduate students hours)

See the Step-by-Step Guide for completing an adjustment form. Notes:

• If there are multiple types of adjustments for an employee during one pay period then all of the adjustments should be submitted on a single adjustment form.

- Adjustments for monthly employees, other than leave, require an amended employment contract or ePAN in addition to the above requirements.
- If leave has been understated or overstated use the UNM Payroll Leave Adjustment Form.

- Once an employee receives a BAR for Timekeeper of Time Approver, they will be added to a listserv that sends out emails with important time entry information. It is important that as a Timekeeper or Approver you are receiving these emails.
 - If you are not receiving the emails make sure to check your Junk and Clutter folders.
